Job Description: Web Programmer

Informatics, Inc. a progressive and award winning web agency in the Cedar Rapids/Iowa City Corridor specializing in helping clients use the internet more effectively. If you would like to develop websites and web applications and work in a growing, entrepreneurial, casual environment with great benefits, we'd like to talk to you.

Informatics is looking for a talented Web .NET/PHP Developer to join our team. You should have a solid understanding of the latest internet trends and be able to work with other team members to design and develop web applications. You must be customer service oriented and work well independently as well as in a team environment. Working knowledge of web programming languages (like .NET/PHP), SQL, HTML5 and CSS is a must!

Web Developer Job Purpose: The role is responsible for designing, coding and modifying websites, from layout to function and according to a client's specifications. Strive to create visually appealing sites that feature user-friendly design and clear navigation.

Job Requirements:

- Computer Science, Informatics or Engineering degree with emphasis on Object Oriented programming
- Strong organizational, project management, problem solving and time-management skills
- Outstanding .NET/PHP web development skills on various Frameworks
- Strong knowledge of SQL queries, stored procedures, and working knowledge of MSSQL and MySQL.
- Proficient ability to apply style guide creatively while upholding usability and in-house standards
- Effective communication (written and oral) and interpersonal skills.
- Consistently meet deadlines while operating in a team environment
- Able to take projects from start to finish with minimum supervision

Education and/or Experience:
Bachelor’s degree from a four-year college or university preferred in a related field with at least three years related experience or equivalent combination of education and experience is required. You must enjoy working with clients giving outstanding customer satisfaction, have analytical and problem-solving skills, be highly organized, and be able to conduct research, synthesize information, and produce results. You should also be capable of juggling multiple projects, meeting deadlines and delivering high quality, professional work products with minimal supervision.

Application Process:
If you have what it takes and would like to be part of this expanding, fast-paced, and exciting industry, we'd like to hear from you.

We offer excellent benefits including a competitive salary, health and dental insurance, life insurance, team-oriented, casual environment, great Downtown location, new modern/urban office and more.

If interested, please submit the following three items (all are required for further consideration):
(1) Cover letter that describes what you can contribute to Informatics
(2) Salary history
(3) Resume or CV

Email all of the above to careers@InformaticsInc.com
We look forward to hearing from you!
